REACH Compliance Statement

The European Union passed the **Registration, Evaluation, Authorization & restriction of CHemicals** (REACH) regulation in December, 2006, entering it into full force on June 1, 2007. REACH governs the production, use and importation of chemical substances.

None of the articles presently manufactured or supplied by MAC Panel contain any Substances of Very High Concern (SVHC) or substances intended to be released from the articles during normal or reasonably foreseeable conditions of use. Registration of articles manufactured and supplied by MAC Panel is not required.

MAC Panel is committed to meeting and exceeding its customers' requirements and expectations, including compliance with all applicable environmental standards and directives, and will continue to work with its outside vendors to ensure their familiarity and compliance with the regulations of REACH.

As the regulations of REACH evolve, MAC Panel will continue to monitor new requirements and to take appropriate actions if needed. Specific questions regarding MAC Panel's products or its compliance with the regulations of REACH should be directed to our technical support staff, telephone +1 336 861 3100.
